SUMMARY

To obtain hands-on experience in the field of full stack web development in your company as I have a strong foundation in programming languages such as Java, Python and Javascript. I have a solid understanding of front-end technologies such as HTML, CSS as well as back-end technologies such as MySQL databases and Django. I have completed a few personal projects that demonstrate my ability to learn quickly and apply my skills effectively. I am excited to continue to develop my skills and contribute to a dynamic team.
